IMPORTANT

Safety devices do not in any way replace the presence of an adult person who should show due diligence in monitoring the activities in the area.

All adults shall read and have knowledge of the security provisions for each device.

The safety devices ensure the safety of young children only if the device is locked.

Under no circumstances should you allow a child to remain alone in the pool area, nor leave them alone nor take your eyes off them even for a few seconds : your child could drown in 3 minutes in 20 cm of water.

While bathing in the pool it is strongly recommended to fit children with a floatation device (properly fitted rubber ring, arm bands, ...)

IN THE CASE OF AN ACCIDENT

Take the person out of the water immediately.

If they have become unconscious carry out elementary resuscitation procedures (CPR).

Call the emergency services closest to the address. In the case of drowning speed is of the essence.
